Chapter 1 | INTRODUCTION

Metafintec Token is a BEP-20 cryptocurrency of its kind, its Hyper deflections automatically rewards holders in USDT, a regulated, stabletoken, pegged 1-1 with the US dollar. It is a decentralized platform that bridges the gap between crypto and fiat currencies and brings the benefits of the crypto world to everyday people. Based on the Binance Smart Chain, it has up to 10x quicker block speeds and lower gas fees compared to many projects competing in this space. Metafintec Token is a Yield Generation token aiming to reward its holders in USDT. It is establishing a new standard in DeFi Tokenomics with its innovative and gamechanging token distribution strategy. Metafintec is intended to be held longer term to generate passive income and capital growth. Due to the stable-token rewards being paid on all transactions, investors benefit during both Bull and Bear markets. Holders of MAFTEC coin has a dual earning benefit both Active & Passive. Apart from defi ecosystem our Metaverse & DAO ecosystems are closely watched by industry veterans like Krafton, Level Infinite, Mirari Creation Fund, Symmetry Dimensions with Level 1 talks being approached by us.

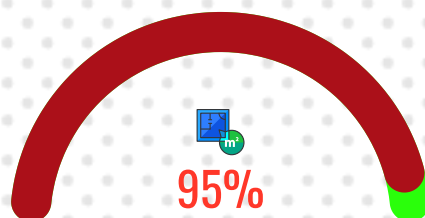

A Investor's guide to

EVERYTHING YOU NEED TO KNOW

Our Vision & Data Presentation

Chapter 2 | **INSIGHTS**

Metafintec Token aims to be a front runner among all cryptocurrencies . MAFTEC from its very existence is designed with a investor friendly mindset by our developers . Our token rewards its users in USDT stablecoin rather than rewarding in other native coins like other projects .With its anti-Whale system, Metafintec Token discourages Whale sells by limiting any sell amount to a maximum of 1% of the circulating supply. Holders of Metafintec Token get rewarded in USDT. With every transaction, a small percentage of tokens are automatically transferred to the PancakeSwap Liquidity Pool. Metafintec Token also maintains a BuyBack reserve from where the tokens are converted into USDT and securely locked and stored in the Metafintec contract. These USDT are then used for strategic BuyBack & Burn – the contract Buys Metafintec Token, creating volume, rewards, & positive price action, then sends those tokens to the Burn address – removing them permanently from circulation, including rewards eligibility. This last step means holders of MAFT continuously receive a higher overall share of rewards distributed and circulating supply reduces over time. Metafintec Ecosystem has an active NEO BANK PLATFORM , DECENTRALISED EXCHANGE and others such as NFT marketplace to buy and sell NFTS other features like Merchant Payment gateway , TheCryptoTravel.com , Crypto based Ecommerce platforms , Metafintec Wallet, Play2Earn games and Metafintec Centralised Exchange are already under final development stage launching by Q3 2023, providing both entertainment and utility for MAFTEC holders and to ensure ongoing volume, rewards and capital growth.

Do you know around 95% of the presale & fair sale listings collect investors money just with a whitepaper and we at Metafintec are proud to inform that we fall under the remaining 5% projects that comes to presale with a functional ecosystem with a genuine intention of growing our vision alongside our investors investment .

Chapter 3 | WHY METAFINTEC ?

Trust : These days with growing cryptocurrency needs many scam or illegitimate tokens are launched by 100's every day . Almost 90% of new coin launches end up being scams, with a further 5% failing within their first few months. In an industry where only 5% of projects survive, it is essential that a project is trusted, and run by professionals with a proven trackrecord in business. The team behind Metafintec token consist of a group of well-known professionals in the field of finance, blockchain and marketing. The team were doxxed at launch, are KYC verified, and communicate directly with the community via regular AMAs and chats on Twitter, YouTube, Telegram and Discord. Our Contract MAFTEC has been triple audited by Coinscope , Soliditycheck , Codeguard . Metafintec have published all relevant wallet addresses, including management team wallets, locked liquidity in a third party secured locker for 3 years, and communicate all major business decisions with the community. No project has done more for community trust and contract security.

Stability : Metafintec token is here to stay! We are the only project in Q1 launch to have launch with a Industry first NEO BANK PLATFORM that is fully functional as well as Launching with a fully operational Decentralised Exchange which also happens to be India's 1st DEX platform that was the prime demand in india ever since crypto gained traction in the tech savy 1.4 billion worlds youngest Populated nation wanted . We have also set a Healthy budget for marketing and development, we aim to grow into one of the world's top cryptos by 2023.

Investor Centric : Metafintec token is highly investor friendly specially for Holders , apart from earning 11% tax redistribution in USDT stable coins , METAFINTEC founders have also introduced a Industry first DIVIDEND AIRDROP , where in all the holders will get a equall share of Profit of 20% profit earned by the organisation through all means Crypto & Non Crypto which will be distributed to all eligible holders through Airdrops at the end of every financial year . Also the Buy and Sell tax are fixed and cant be changed no matter what so that means the 11% Redistribution tax given to holders collected from every buy and sell will never and cant be stopped by anyone .

Chapter 4 | TOKENOMICS

SUPPLY

100,000,000,000 (ONE HUNDRED BILLION)

Redistribution Tax

Our contract puts 11% tax on every buy and sell which is then redistributed to all holders equally in USDT hourly basis.

Development Tax

Our contract imposes a development tax of 0.5% on every buy and sell which is then transferred to our dev wallet .
0xF0A2Ff1651646Cdb956aD83eF16e6045d5972B9c

Marketing Tax

Our contract imposes a Marketing tax of 0.5% on every buy and sell which is then transferred to our marketing wallet .
0x8873f34DfAc04Fa9E1d7155572736B28B3933CB1

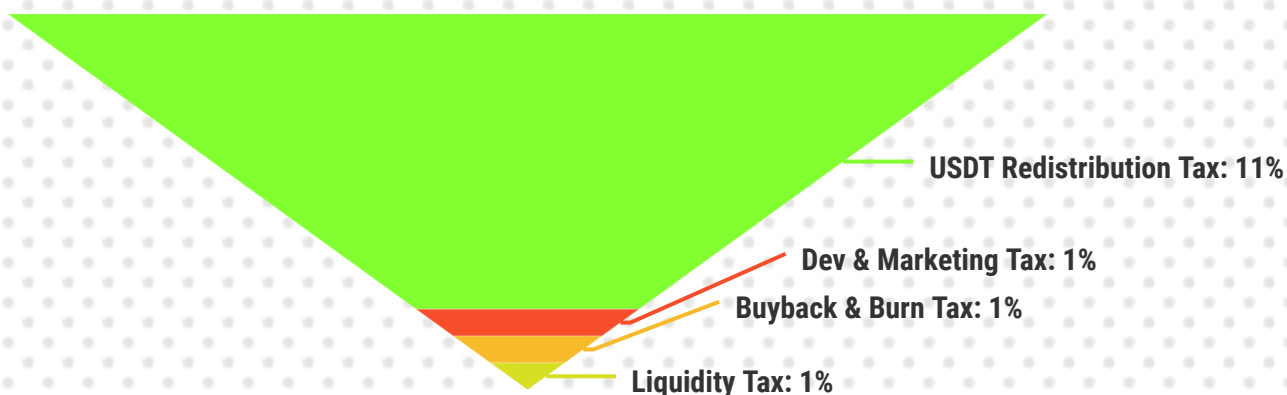

Liquidity

1% of every transaction is transferred into Liquidity Pool for Pancakeswap to create a stable price floor.

Buyback & Burn

1% of every transaction is transferred into Smart Contract for strategic BuyBack reserve to be later burned periodically.

Tax Chart

All the tokenomics mentioned above are locked forever which means the values are not variable and it can't be changed whatsoever under any circumstances .

Chapter 5 | ECOSYSTEM

NEO BANKING SOLUTION : Industry first Neo Banking solution for US , AFRICA , EU regions , ready and live at www.metabankex.com .

- Physical , Virtual Debit Cards
- Crypto Wallet with P2P Exchange Trade
- Buy Crypto with RAMP NETWORK
- Agent Login – Cash Pickup/Drop
- Progress Web Apps for Android & iOS
- Personal Accounts with real account number and routing number
- Your own branded International Debit Cards
- Add funds via crypto Coinbase commerce
- Payment Gateway
- Professional Rest API
- Debit Cards can be used at ATMs, swipe and tap terminals
- Multi-use Wallet
- Global Airtime / Mobile Money Topup
- Load funds via paypal Payment Gateway
- Load funds via ACH transfer to Debit Card. Transfer money from any of your bank account using the account number and routing number
- Business Accounts with add on card option.
- KYC via Debit card provider.
- Merchant services – Payment Buttons and QR code payments.
- Accounting & Invoicing Features
- KUDA Bank virtual accounts.
- Real Time FX Trading with Meta Trader 5.
- Multi Language Options Powered by Google Translate
- 2 Factor Authentication using Google Authenticator App
- Agent Login – Cash Pickup/Drop
- Loan Offerings
- International Remittances
- More Payment Gateway options
- Gift Cards
- Loyalty Programs
- Hotel Bookings
- Air Ticketing (BETA)
- Bus booking (BETA)
- Ecommerce marketplace (BETA)

Metabankex.com is a industry first in the cryptocurrency world easy-to-use Neo Banking platform that helps anyone to open a Digital Bank account with Crypto wallets and trading simultaneously between bank and crypto wallet

Funds Distribution

Chapter 7 | ROADMAPS

ROADMAP TREE

Q4 2021

- ✓ • Create Ecosystem Blueprint .
- ✓ • Develop Hyp Def BEP-20 token .
- ✓ • Develop Website .
- ✓ • Setup Social media Handles .
- ✓ • Organize Core Team .

Q2 2022

- ✓ • Live all developed solutions .
- List on Multiple Exchange .
- Submit Listing to Coinmarketcap & Coingecko .
- Achieve 5k Holders & followers across all Social media platform .

Q4 2022

- ✓ • Complete Air/Travel booking portal www.thecryptotravel.com
- Complete development of Crypto based auction platform .
- Complete development Crypto payment gateway for merchant services .

Q2 2023

- Achieve 50k Holders & followers .
- Kickstart mega Burn Campaign .
- Bid for IPL team Franchise .

Q4 2023

- Celebrate 100 k Holders !
- Expand ecosystems .

Q1 2022

- ✓ • Start Development of Ecosystem .
- ✓ • Complete Development of DEX .
- ✓ • Complete Development of NEO Bank .
- ✓ • Complete Contract Debug , Audit & KYC .
- ✓ • Complete Development of NFT marketplace
- ✓ • Organise Presale .

Q3 2022

- ✓ • Start Legal procedures of CEX registrations
- ✓ • Create Blueprint of Metaverse ecosystem .
- Develop P2E board games .
- Develop P2E Virtual simulation games .
- Launch own IDO & Free Presale Launchpad .

Q1 2023

- Achieve 25k Holders & followers .
- Engage social media influencers targeting 100 million impressions .
- Live P2E Board games .
- Launch Android & IOS Wallet

Q3 2023

- Achieve 75k Holders & followers .
- Launch P2E Simulation game .
- Launch CEX .

COMPLETED

ACHEIVED BEFORE TIME

LATE

Chapter 8 | OUR TEAM

We have a very young dynamic diversified and talented team spread across the world comprising of 32 staffs and 4 senior DEV's from different parts of India , Singapore , Sri lanka , Canada , Serbia , South America and Russia .
